Win these badges

How to become ACTIVISION Master

We've already set up six individual Activision Master Games performance award schemes for real high scores. If you can achieve Master Game scores on Activision's **Laser Blast**, **Skiing**, **Dragster**, **Stompedo**, **Freeway** or **Kaboom**, you'll get a Laser Blast—or a Super Stompedo/Ballbadge—which proves you're one of the very few top scorers in the U.K. on that particular Activision game cartridge.

So compare your performance with those we've registered so far, and then get a photograph!

Laser Blast

Achieving a score of 100,000 plus on **Laser Blast** entitles you to receive the "Commander—Activision Federation of Laser Blasters" badge. Achieving the maximum possible score (999,999) is recognised by an additional pocket/soulder patch bearing the legend: 1,000,000.

Skiing

Any Member who can better Ian Stanley's time (U.K. record) 07' 18 seconds station-down the slopes on **Skiing**—will become an Official Member of the "Activision Ski Team". In fact, to qualify for the badge you need to beat 28.7 seconds—easy!

How to apply for MASTER GAMER STATUS

1. Get a signal-fying score, and take a photograph of your TV screen when you achieve it.
2. Write your name, age and address on the back of the photograph, and send it in to us as soon as you can. Here's who to write to:

Helen Gately, Activision Scorekeeper,
OGL, Activision Fun Club, FREEPOST,
Loughboe, Essex, SS10 1BN
(No stamp required)

We require we can only accept Master/Gamer claims in writing, with a date but if you need any advice (or egging on!) telephone Helen on 0225 32605/72448.

Dragster

Dragster fanatics achieving better quarter mile scores than Alan Carter's current U.K. record of 0.01 seconds will achieve Membership of the "Activision

Send us your
High Score Photos

Freeway

To join **Freeway** & **Save the Chicken Foundation** you must get your chicken through the traffic at least 20 times. There are currently 2,000 plus members of this elite batch worldwide—you can be one of them first in the U.K. The all-time record for the U.S. is 24 crossings.

World-Class Dragoner Club—with a certificate to prove it. We'll actually give the medal to anyone who can beat our records.

Stampede

Top scorers on **Stampede** are eligible for Membership in the "Stampede Test Drive" if they can achieve 3,000 points (at the legal record in the U.S. is 157,800 points).

Kaboom

To get into the "Kaboom Bucket Brigade" you must score 3,000 or more points. Members just eight members have achieved the ultimate and "rolled over" with 259,205—score what you can do!

Could you be one of the elite to achieve ACTIVISION UK Game Champion Status?

After achieving Master Gamer status in **Star Wars** (page) off any of the cartridges shown, your next step is to go for Game Champion! You'll soon compete with every other Activision Master Gamer in the country and have a record to the number of scores you can submit.

OGL will bestow lifetime Game Championship status and a personalized certificate suitable for framing, to the highest score received to date on Activision's **Laser**

Blaster, Skiing, Dragons, Stampede, Freeway and Kaboom! It's quite possible you could be a multiple Game Champion—or a Game Champion for just a few hours. New scores are coming in to Home at the time.

Follow the game instructions for your Game Championship claim as for your Master Gamer claim—and they must **always** be in writing, with a photograph, please.

How to take a photograph of your On-Screen High Score

It's very easy! Just follow these
instructions:

DO NOT USE A FLASH BUILT in most cases the system you score on (although often it doesn't turn on at the trigger the score. Remember, are so looking for photograph's worth of art—mostly proof of the score you've achieved. Finding that flash up already is just as hard.

50 minutes: There are two methods we've used with some success—either a friend or you yourself. Another \$1.50 a min with an ASA rating of 100, set lens on 100 and expose film for 2 to 5 seconds. You might \$2 for 100 ASA film shot at 100 or a second using the widest lens opening. Film ready!

Instant Camera—110 and 110. Instant development is fantastic. The instant film camera film opening needs as possible. Model ready!

Polaroid...probably the most popular method. Polaroid film has an ASA of 3000 and up (some the TV can show to help the exposure).

ACTIVISION® UK Pentathlon

If you're a
Fun Club
High
Scorer,
this is
your
chance!

The UGL Act is your Fun Club Pentathlon will be held in London in the Spring of next year. All Activision Master Gamers will be eligible to apply—no limit on high scores on the last night.

The Pentathlon itself will consist of a series of exciting competitions in several Activision games—but, surprisingly about your score. No one will know what games will be selected until the next day. But! The winner of each will be awarded an impressive prize package for travel to California, USA. And there will also be a number of other prizes awarded to the runners up.

We'll include an application for the famous Pentathlon in the next issue of the Fun Club magazine, together with details of exactly where and when it will take place.

Judging by the response to *Dead Zone* all you will agree, gentlemen, the first ever U.K. Activision Pentathlon should be no less exciting. Indeed, it should be the most exciting of the year. So be there!

'Street Machine' takes on Dragster

Street Machine (1981) is the U.K.'s top custom car magazine. Every year it sponsors one of the country's most popular custom car shows—held in London, and now held in the Birmingham M.O. this year.

Street Machine took one look at Activision's *Dragster* and decided it was time to have a custom car competition on their show—and so, *Street Machine*'s Activision Dragster U.K. Challenge was born. The *Street Machine* magazine is so popular that the magazine is now sponsoring a number of similar events and will go back again in the style of *Street Machine* next year to win. Just shows what a quality design can do!

Dear Fun Club

My congratulations on another superb game Dragon! I eagerly await more. Your game designers appear to be more imaginative and skilful than those at Atari and the four Activision games I already own are superior to almost all the Atari games (and to my sheep!).

Keep up the good work and thank you for many past and present hours of entertainment and enjoyment.

J P. Corrigan, Swindon, Wilt

Dear Fun Club

Dragon! I wonder if you are interested in my rather weird notion? What I do is keep the engine in the test version and when the clock reaches 0, drop into it and change it to let us fly as I can. I then 'zap' the clock off the map and have done pretty well so far.

Simon Mingers, Chesham, Cheshire

Dear Fun Club

Your cartridges are very good indeed and very challenging—although I only have Pooking, Binky and Laser Blast I find them very good value for money.

Hope to see more Activision cartridges very soon—and thank you for the many hours of enjoyment I have had from your products.

Barry J. Hargreaves, Heywood, Lancs

Dear Fun Club

I've dived with your Franta game. I ran into the computer when the minute it is in the 0 position, giving lots of weird angles, the distance but it got me in 0 position.

I'm looking at Pook with my younger ones also in order to buy new cartridges by Activision. I have only got Franta but am planning to get Binky soon...
